

The following is submitted by the Aquatic Education Institute in support of our application to the FBC for approval to offer the course **2004 FBC Advanced Building Code Course, swimming pool, plumbing and fuel gas.**

Learning Objectives:

At the conclusion of this course the student will be aware of the significant changes in the 2004 Florida Building Code Plumbing and the 2004 Florida Building Code, fuel gas and the related changes in the 2004 Florida Building Code, Residential. These changes include:

- General regulations (materials, pipe protection, structural safety, inspections.)
- Water supply and distribution
- Sanitary and storm drainage
- Venting regulations
- Fuel gas combustion and ventilation
- Swimming pool requirements
- Residential plumbing specifications
