Building Code and Standards - Florida Department of Community Affairs
2555 Shumard Oak Blvd.
Tallahassee, Florida 32399-2100

Dear Mr. Madani,

Re: Notice of Approval

We request a declaratory statement to indicate whether our Structa Wire products fall under the scope of Rule 9 B - 72 and would therefore require a notice of approval. If in the negative the declaratory statement would indicate as such.

We submit that our products are not structural although comprise an element of the building envelope. They are simply welded wire stucco reinforcing products.

General considerations are as follows;

1. All of product recognized under ICC 2017
2. All of products have been tested in accordance with AC191 and by ICC approved laboratories and have been deemed to be equivalent or superior to IBC, IRC, & UBC approved wire lath stucco reinforcement products and are listed as follows;

Names of products;

Structalath No. 17 SFCR II
Structalath No. 17 SFCR Twin Trac
Structa Mega Lath
Structa Rib Lath
Structa Corners Exterior Corner Reinforcing
Structa S - Corners Exterior Corner Reinforcing

3. Our company maintains its quality assurance program – (including required 3-party audit) in accordance with ICC requirements
4. Structa Wire Corp is the sole manufacturer of Structa Wire products.

Thanks for your assistance in this matter

Yours Truly,

Abe Sacks
Chairman – Structa Wire Corp.
