Our Reference: File No.MH29301 Vol. 1QA, Project No. 03CA33100

Subject: UL's Quality Assurance Service for the Florida Product Approval Program

Dear Ms. Cogan:

We have established a 1QA Volume for the currently existing Follow-Up Service Procedure MH29301. The 1QA Volume describes the UL Representative's and Manufacturer's responsibilities pertaining to the criteria for the conduct of quality assurance inspections under the Florida Product approval program covering the following products:

Rib Panel; 29 ga. galvanized, 29 ga. PTD galvanized, 26 ga. PTD galvanized, 26 ga. Acrylic Galvalume

5V-Crimp and Millennium -V; 29 ga. galvanized, 26 ga. galvanized, 26 ga. Acrylic Galvalume

PBR; 26 ga. PTD Galvalume, 26 ga. Acrylic Galvalume

We will use the Follow Up Services Procedure in conjunction with your Quality Control Manual and documentation referenced as part of your quality control program. You will be receiving a final copy of the inspection document in the near future. In the meantime, we have attached a draft of the inspection document.

Under separate cover we have instructed our UL Representative to begin conducting audits to verify adherence of the quality assurance requirements at the manufacturing facility. The current audit fee is \$209.00 for each quarterly inspection.

This concludes our work under Project 03CA33100.

If you have any questions, please call me at (847) 664-2264

Very truly yours,
