MEMORANDUM

TO: Training Course Providers

FROM: Michael Clark
Building Code Education Administrator

RE: Future Development of Training Courses

DATE: May 1, 2006

Many Training Course Providers have taken advantage of the opportunity to buy both advanced and core courses from the Department of Community Affairs and use those courses as the basis for their training curriculum for license renewal. As of xxxxxxxxxxxx, the Department of Community Affairs will no longer develop and sell training course materials. This means that from xxxxxxxx, each training provider will be responsible for developing whatever course materials they want to use to train their respective customer base.

Courses that were purchased from the Department of Community Affairs can still be used as long as they meet whatever current standards or criteria that are described in statute, and of course, reflect the current building code.

We appreciate your assistance with this matter and if you have any questions about this issue, please contact me at 850.766.2023.
