## **FBC Education Administrator Report**

**August 4, 2009**

A. Provided administrative support for FBC Education POC June 5, 2009 meeting

B. Drafted minutes for FBC Education POC June 5, 2009

C. Prepared agenda for FBC Education POC meeting on August 4, 2009

D. Inquiries from the public from June 5 to August 2, 2009 as follows:

27 inquiries; 6 telephone and email; 12 telephone only; 9 email only

Category of inquirers:

1 Engineer	3 Contractor	3 Home inspectors
4 Architect	4 Landscape Architect	
1 Building official	5 Providers	
6 Miscellaneous (consumer, information about building inspector certification, unidentified licensee)		

Types of Inquiries:

10 Core	1 BCIS (inactive message)	1 Fire code
2 Provider questions	2 Building inspector certification	
6 Advanced Course	2 Home inspector	
3 Miscellaneous (seeking funding to cure below grade construction water problem, posting of CE credits, code relating to roof ventilation, construction lien law)		

E. Contacted all providers (copy to respective accreditor) with outdated and pending courses to inquire as to status.

3 accreditation complete, pending FBC action (2 December 2006, 1 January 2007)

16 need more information (range from October 2005 to December 2008)

19 submitted (range from November 2006 to April 2008)

Not all have yet responded (have responses on a little more than half the courses), but of those who have, most of the courses can be removed with explanations as follows:

12 created in error, abandoned, or replaced and could not find a way to delete from system

1 wants information on what to do to complete application process (from May 2006)

4 accreditor unable to review (provider appears to have resubmitted course)

3 responses to be addressed

(2 provider e-mail addresses are not current)

In process of preparing a list of courses to be archived (deleted). Recommendation to add an option to delete a course application from the system as part of next BCIS enhancements.

F. Offered free sets of 2007 Florida Building Code to accreditors. Have orders for 5 or 6 sets. There should be more available, BUT the Department cannot pay for shipping. Anyone interested, please contact Cam Fentriss.

G. Coordinated proximity and assisted in ensuring attendance for state agency booths at 2009 Southeast Builders Conference (SEBC). Attendees included: Division of Emergency Management, Department of Health (radon, septic tanks, public pools, lead paint, mold, Chinese drywall, wells, mobile home park inspection), Disaster Contractors Network, and Department of Business and Professional Regulation. The Department of Community Affairs could not attend, but BASF offered assistance for any questions.
