Subject: Addendum to DEC Statement Request DS 2012-021

Please consider this a request an addendum to provide further information regarding the impact of not recognizing the statutory provisions related to the renovation of buildings.

AWP Windows and Doors, LLC, is a manufacturer of windows and doors that does in excess of \$5,000,000.00 in business with Home Depot. AWP met with the Home Depot Millwork Buyer (windows and glass doors) thirty days ago and was advised the Merchandise Vice-President stated the windows and doors on the store shelf could no longer be sold after March 15, 2012, due to changes in the Florida Building Code energy provisions. While the Millwork Buyer did not specifically state Home Depot would discontinue purchasing the windows and doors manufactured by AWP, the implication was there and manufacturer expects this to occur. In addition, AWP does a similar amount of business with Lowes, but has not heard from that customer as yet.

Should there be any questions, you need further information, or you wish to discuss this request, please do not hesitate to contact me at your earliest convenience.

Respectfully yours,

A handwritten signature in black ink, reading "Joseph D. Belcher". The signature is written in a cursive style with a large, stylized "J" and "B".
