

COURSE TITLE

– Alarm Dispatch Reduction –

- 1) **COURSE SYLLABUS** – This course is designed for technicians of electrical/alarm contractors who alter, install, repair, maintain, move, replace or service security and/or fire alarm systems as required under Florida Statute Chapter 489, Part II, 489.517 (3) (a) or 489.5185 (4)(c). It will provide greater understanding of the knowledge and skills required for the design, installation and maintenance of these systems, the proper administration of business practices and the reduction of false dispatches.

This course will cover the fundamentals necessary to understand basic systems, including terminology, system design, theory of operation, installation, system startup, as well as general maintenance and business practices. The course will introduce the students to alarm contracting requirements under FS 489, FAC61G6, FS 633, FAC 69A-48, NEC, NFPA 72, NFPA 101, CP01, CP10 or other pertinent statutes, standards and codes.
