DCA 09-DEC-309*

DE-DCA-309

**PETITION FOR DECLARATION STATEMENT BEFORE THE FLORIDA BUILDING COMMISSION:**

**ISSUE:** Recently, we had a permit application submitted for an alteration/renovation to an existing swimming pool; the scope of work was to refinish the pool and deck and replace the pump and filter. The project address is 846 River Boat Circle, Orlando, FL. I am requesting a clarification for Orange County, as to the applicability of the 2007 Florida Building Code, Existing Buildings relating to alterations/renovations of existing swimming pools. In addition to this request for permit, we receive permit applications on a daily basis for various modifications/renovations to existing swimming pools.

Our question is as follows:

1. Does the 2007 Florida Building Code Existing Building Code apply to renovations to existing swimming pools?

Respectfully submitted,

Alan C. Plante  
Building Official
