

**Florida Building Commission  
Electrical Technical Advisory Committee  
Orlando Florida  
January 7, 2001  
Minutes**

**Meeting Objectives:**

1. Review sample guide/cross reference documents which identify sections of the Code with provisions for electrical requirements, and provide recommendations to the Commission relative to which ones, if any, will be added to Chapter 27 of the FBC.
2. Review Article 80, to verify whether any item, not in conflict with the FBC, should be captured and included in Chapter one of the Florida Building Code, and provide recommendations to the Commission.
3. Review remainder of the 2002 Articles and Annexes to verify whether they should be included in the Florida Building Code and provide recommendations to the Commission.
4. Consider addition of new TAC members (David Appler, Roy Van Wyk and Edmund Danger) and provide recommendation to the Commission for consideration.

---

**Item #1:** Review sample guide/cross reference documents which identify sections of the Code with provisions for electrical requirements, and provide recommendations to the Commission relative to which ones, if any, will be added to Chapter 27 of the FBC.

The TAC discussed and reviewed three samples of cross reference documents and directed staff to combine the three documents using Mr. Roy Van Wyk's document as the base document. Staff will present the combined document to the TAC at the March Commission meeting.

**Item #2:** Review Article 80, to verify whether any item, not in conflict with the FBC, should be captured and included in Chapter one of the Florida Building Code, and provide recommendations to the Commission.

The TAC discussed the subject of Article 80 and took the following action:

**Action** - the TAC voted to recommend to the Commission the adoption of the 2002 NEC, excluding Article 80. Approved unanimously.

Note #1: Several comments have been received in support of the adoption of 2002 NEC as soon as possible.

Note #2: The TAC members would like the Commission to clarify when the 2002 NEC can be adopted.

**Item #3:** Review remainder of the 2002 Articles and Annexes to verify whether they should be included in the Florida Building Code and provide recommendations to the Commission.

The TAC discussed the subject of the Annexes and took the following action:

**Action:** the TAC voted to recommend to the Commission the adoption of the 2002 NEC as written with the exclusion of Article 80. Approved unanimously.

**Item #4:** Consider addition of new TAC members and provide recommendation to the Commission for consideration.

The TAC recommended the following individuals for consideration:

David Appler - Florida Power & Light Company.

Roy Van Wyk - Miami Dade.

Clarence Tibbs - Electrical Contractors' Licensing Board.

Oriol Torres Haage - Building Code Compliance.

Need two hours meeting in March 2002.
