Tom and Mo,

I want to see if we can add to the upcoming rule changes for the Ed POC:

1. Required a example of the Certificate of Completion that includes:
  - a. Course Title.
  - b. Licensing board approval number (once it becomes available).
  - c. Hours of credit.
  - d. Contact information for the continuing education provider.

The Florida Board of Professional Engineers requires the below, from the last POC meeting, I do understand that Certificates can be for other Boards.

*Following the course, you must provide the Board with a copy of the completion certificate that shows the course number, course hours, Code edition year, and Code or course focus so that your record can be updated. Certificates can be emailed to FBPE at [cedesk@fbpe.org](mailto:cedesk@fbpe.org). When submitting your certificate to the Board, please include your full name and license number in the email.*

2. Requirement that all submitted course material be easily legible. This is to eliminate the presentations submitted that have 3 to 6 slides per page making it difficult to review.

I hope we can add the above to the agenda or the May 27th meeting.

David
