RE: WAIVER REQUEST FROM VERTICAL ACCESSIBILITY FROM THE FLORIDA BUILDING COMMISSION FOR THE 283 ROYAL PALM WAY OFFICE BUILDING - PALM BEACH, FLORIDA

To the Members of the Accessibility Advisory Council and the Florida Building Commission:

Please be advised that, as the architect for this project, I concur with the responses made by the accessibility consultant, Larry M. Schneider AIA, who has been retained by the owner to assist in this waiver process as it relates to the responses to the following items in the application Waiver# 665-R0.

- Item 8 - Construction Status
- Item 9 - Requirements to be Waived
- Item 10 - Grounds for the Waiver

The requirement to be waived is the requirement from Florida State Statute 553.509 which states that this part and the Americans with Disabilities Act Standards for Accessible Design do not relieve the owner of any building, structure, or facility governed by this part from the duty to provide vertical accessibility to all levels above and below the occupiable grade level, regardless of whether the standards require an elevator to be installed in such building, structure, or facility, except as noted within that section and pursuant to Florida State Statute 553.512 which states that if an applicant for a waiver demonstrates economic hardship in accordance with 28 CFR 36.403(f)(1), a waiver shall be granted. Furthermore, section 202.4.1 and 202.4.2 of the Florida Accessibility Code for Building Construction clarifies the requirements as it relates to the requirements for disproportionate costs as well as the federal regulations under Part III of the Americans with Disabilities Act, Public Law 101-336, 28 CFR Part 36 - Nondiscrimination on the Basis of Disability by Public Accommodations and in Commercial Facilities section 36.403(f)(1)(f) Disproportionality.

We thank you for your time and consideration of this application.

Sincerely,

Roger P. Janssen, AIA
