Mo – I would also like to emphasize the importance of noting for the public record if the inspection was “Virtual” or “In person on site”.

It is our practice as a municipality to document if an inspection was “virtual” or by any other means than a site inspection.

Mo,

RE: Private Provider Inspection Form

I think the form should indicate if the inspections was VIRTUAL or an IN PERSON SITE VISIT.

Thank you for the opportunity to respond.

Thanks,

Paul
