RE: FL#10449r03 Equivalence of Published Versions of Test Methods

Dear Mr. Jenkins:

I have reviewed the following standards to evaluate their equivalence to the same test method standard but with a different publication date as referenced by the Florida Building Code (FBC). Specifically:

ASTM E96-16, *Standard Test Method for Water Vapor Transmission of Materials* (FBC-Referenced Standard) was compared to ASTM E96-14 (NTA Test Report MUR(660)092815-34), and;

NFPA 286-19, *Standard Methods of Fire Test for Evaluating Contribution of Wall and Ceiling Interior Finish to Room Fire Growth* (FBC-Referenced Standard) was compared to NFPA 286-15 (Intertek Test Report F3569.01-121-24)

I conclude that the test method standard versions are equivalent regarding the referenced product and application.

Respectfully,

Gary Hartman, P.E.
(ANE11725)
