Tallahassee, FL 32399-2100

Ref: Engineer's Statement of Equivalency

To whom it may concern,

As the design engineer retained to prepare the product approval(s) associated with this letter as shown in the summary of products section below, the purpose of this letter is to state that some reference standards have changed. For the scope contained within the subject product approval, the requirements of required items within the new reference standard(s) is still met because:

- AAMA 501-05 is no longer applicable, and instead the reference standard is AAMA 501-15. A comparison of the older standard with the newer standard shows that they are equivalent, as relevant and applicable.
- ANSI Z97.1-09 is no longer applicable, and instead the reference standard is ANSI Z97.1-14. A comparison of the older standard with the newer standard shows that they are equivalent, as relevant and applicable.

If you have any questions, please feel free to call our office.

Sincerely,

8-28-2020

Jalal Farooq, P.E.
CFO
