Re: Equivalency statement for AAMA A450 testing of the following Pella Corp. product:

- Impervia Model 2.0 Sliding Patio Doors under FL39352

While the test reports state testing to AAMA 450-10, upon review of that testing, we find that the testing performed on the applicable product referenced here-in also meets the requirements of the more current AAMA A450-20 standard. Therefore, equivalency of standards has been met & reference to AAMA A450-20 is acceptable.

Sincerely,

Warren W. Schaefer, P.E.
